

# SPACE SAVING

## COFFEE SHOPS

**Use different tiered cake stands to present more cakes in a limited space.**

Hanging cups from a feature wall saves space and looks visually appealing.

Stacking coffee cups on top of the espresso machine allows you to save space on the counter surface.

Show 2-3 pre-prepared sandwiches in display unit and top up throughout the day.

Counter edge bins are great to present your lighter snacks such as chocolate bars.

Stackable outdoor chairs makes it easier to set up and pack down the front of the shop.

Steam and crush empty milk bottles to reduce space in bins.

Pre-wrap knife and fork combo so you only need one cutlery pot.
